PROFESSIONAL SUMMARY

Innovative Frontend Developer and Product Strategist with a strong track record in driving **digital transformation** through user-centric web applications and scalable SaaS solutions. Recognized "Hustler" in 5+ national hackathons, bridging the gap between technical execution and product strategy. Proven leader as Vice President of DNCC, committed to the responsible use of technology to improve consumer lives. **Available for a full-time internship for 6 months, starting June 2026.**

TECHNICAL SKILLS & LANGUAGES

- **Web Development:** Next.js, React.js, Tailwind CSS, Shadcn UI, TypeScript, HTML5, CSS3, JavaScript.
- **Product Strategy:** Project Management, Design Thinking, System Design, Stakeholder Communication.
- **Backend & Database:** CodeIgniter 4 (PHP), Express.js, MySQL, RESTful APIs, JWT Authentication.
- **Data & AI:** Machine Learning Algorithms, Data Engineering, Text Summarization.
- **Languages:** English (Professional Working Proficiency), Indonesian (Native).

LEADERSHIP & ORGANIZATIONAL EXPERIENCE

Dian Nuswantoro Computer Club (DNCC) | Vice President | Aug 2024 – Present

- Lead a multicultural diverse team of developers and tech enthusiasts, fostering a culture of innovation.
- **Demonstrated ability to work both independently and collaboratively**, balancing high-level strategy with hands-on technical execution.
- Previously served as Website Division Coordinator, overseeing the development and maintenance of organizational digital assets.

SELECTED PROJECTS & IMPACT

Fleet Management System (SaaS) | Project Manager & Lead Frontend Developer

- Orchestrated the development of a multi-tenant SaaS platform to **digitalize logistics operations**, aligning with **Industry 4.0** principles.
- Built a modern, scalable interface using Next.js and TypeScript, integrating Leaflet and OSRM for real-time fleet tracking and route optimization.
- Improved operational transparency for logistics providers through a centralized dashboard for multiple fleet management.

ECOPOS - Point of Sales | Frontend Web Developer

- Developed a high-performance web interface using Next.js and Shadcn UI to modernize retail operations.
- Engineered core features including transaction logging and product management, increasing operational efficiency for cashiers and admins.

PILMO - Integrated TB Medication Monitoring Platform | Hustler & Product Strategist

- Designed an inclusive healthcare solution to increase medication adherence for TB patients, focusing on social impact and accessibility.
- Successfully pitched the product as a Finalist at **HOLOGY 8.0 (Brawijaya University)** and **FIND IT! 2025 (UGM)**.

HACKATHONS & ACHIEVEMENTS

- **Best Speaker – FIKPRENEUR WEEKS:** Pitched a gamified virtual office app to combat remote worker burnout.
- **Finalist Top 10 – Hackvidia 2025 (ITB):** Developed a functional application from scratch in 24 hours; received direct feedback from the CEO of WIZ.AI.
- **3rd Place – National Software Development Competition (OneCall):** Developed an emergency response app featuring **AI voice detection** and real-time GPS tracking.
- **3rd Place – HITECH 2025:** Created a financial literacy platform for Gen Z, aiming to reduce impulsive spending by 20%.

EDUCATION & CERTIFICATIONS

Bachelor of Informatics Engineering | Dian Nuswantoro University | Current Status: 6th Semester+ (GPA: 3.78/4.0)

INTERESTS & FOCUS

- **Frontend Architecture:** Passionate about building scalable, performant, and accessible user interfaces using modern frameworks.
- **Product Management:** Interested in the intersection of business strategy and technical execution, utilizing **Design Thinking** to solve complex user problems.
- **System Design:** Focused on creating robust and maintainable software architectures and **Industry 4.0** digital transformations.
